

## **The Role of the Camp Cheerio Staff**

The Camp Cheerio staff is a group of people who live and work at Cheerio. They all share a common love of the out-of-doors and a love of working with young people in this setting. Generally, they are college students taking a semester or two off or recent college graduate. All of the camp staff have experience in working with children.

We are all in this program together - camp staff, teachers, counselors and chaperones - sharing the common goal of making sure the young people have a safe, enjoyable and educational experience.
