

Cleaning Procedures

As part of the students learning experience, all groups are requested to assist with general clean up during and at the conclusion of their stay. Adult leaders should supervise all procedures. This includes:

1. Prior to departure the cabins should be swept and trash collected.
2. In the gym all balls and other recreation supplies should be returned to their proper places.
3. After each meal, a KP group should remain in the dining hall to wipe down the tables and sweep the floor. This should be done in a rotation so that each person has equal time on this duty.
