

## **Camp Cheerio - Summer 2021 Covid Protocols**

We are looking forward to the summer! Please review our current Covid 19 Protocols. Protocols may (and probably will) change as the summer approaches. We will update this page if there are changes.

We are looking forward to working together to create a safe and fun environment for everyone. One of the keys to our success is to make sure everyone (Staff and Campers) arrive at Camp healthy. If your child is feeling ill in any way, please do not bring them to Camp. We will make every effort to accommodate them in another session, or give you a full refund if we are unable to find a place for them later in the summer.

### **Protocols as of February 23, 2021:**

#### **Prior to Camp**

- Campers will be expected to limit interaction with others a week prior to attending Camp.
- Campers will have to get a COVID-19 test within 72 hours of attending camp and present proof of a negative result on Opening Day.
- Parents will receive an Opening Day Health Assessment prior to Opening Day. Please print the form and complete it on the first day of camp. We will collect them when you arrive.
- Take your child's temperature prior to leaving home. We will check it again once you arrive at Camp. Children who have a fever (100.4 or more) will not be able to attend.
- We will send you an arrival time for Opening Day as arrivals may be staggered to limit the number of people at Camp at any one time.

#### **At Camp (Opening Day)**

- Anyone entering the Camp gates must wear a mask at all times.
- If you arrive at Camp early, please plan to stay in and around your car until the gates open. You will not be able to roam around Camp prior to the gates opening.
- Health and Temperature Checks will be done in your car. If you have medicine, you will drop it off at the Sloan Center once you have dropped off your child at their cabin.
- Camper belongings will be dropped off in front of their cabin. Parents will not be allowed in cabins. Your child's counselor will be outside to meet you and your child.
- The Camp Store will be open in the gym. Please wear your mask and observe social distancing!
- Our goal is to get you in and out quickly once the gates open.

#### **While at Camp**

- Children will be asked to wear masks unless they are only with their cabinmates.

- Children will have a “cohort” they will be involved with during their stay. This may be two to four cabins. A cohort may have less social distancing requirements, but will still be required to wear masks when together. “Cohorts” will be in activities together.
- Temperature and illness screening will occur daily.
- Anyone feeling ill should report it to their counselor immediately.
- The number of children in the Dining Hall will follow Health Department recommendations.

### **In the Dining Hall**

- Cabins are distanced from each other (exact distance will depend on guidelines at the time).
- Although we think all of Camp eating together for meals is an important and special part of Camp, we will eat in shifts if necessary to maintain required social distancing.
- Food will be served Family Style with a limited number of staff setting tables.
- A limited number of staff members will be allowed to serve second servings during meal times. Campers will not be able to get up from their tables once seated, unless they need to go to the restroom.
- Tables will be cleared and sanitized once everyone has left the Dining Hall.
- Time spent inside the Dining Hall during meals will be minimized as much as possible.

### **What if your child is feeling sick at Camp?**

- The camper will be taken to the Health Hut. If they have a fever, cough, or have trouble breathing, we will escort them to a separate area designated for potential COVID-19 cases.
- If your child is experiencing COVID-19 symptoms, you must be prepared to come and pick them up from Camp. We will keep them isolated and comfortable until you arrive.

### **What if we were to have a case or suspect COVID-19?**

- We, or the parents, will conduct a COVID-19 test on the child. We will handle positive test results on a case by case basis, depending on the level of exposure to other children in their cabin or cohort. Anyone having symptoms will be isolated, treated, and will be asked to be picked up within 8 hours.
- If at any point we are deemed to have a COVID-19 outbreak (3 Campers in the same cabin or cohort, we will close camp and ask for everyone to be picked up. If this occurs, we will evaluate what will happen with future sessions.

### **General COVID-19 Practices and Protocols**

- Masks are required except when campers are in their cabin, eating, or swimming.
- Social distancing will be encouraged whenever possible.
- Washing hands with soap/water and/or hand sanitizer multiple times each day.
- Hand sanitizer is available throughout Camp at each building and each activity.
- Camp is cleaned and sanitized each day. Public restrooms and heavily used areas are cleaned multiple times a day.
- Activity equipment is cleaned each day, and if possible, between users.

- All areas of Camp are sanitized each week with an electrostatic sprayer that neutralizes the coronavirus.
- All air handlers in Camp (cabins, Dining Hall, Sloan Center) are equipped with polarized, ionized systems which neutralize the coronavirus.
- Although children will sit together at meals, tables will be separated by six feet from other cabins and cohorts.
- Singing will occur outdoors only.
- Every effort will be made to be outside or in highly ventilated areas whenever possible.
- Staff Members will be limited in their ability to leave Camp during or between sessions. Any time a staff member does leave Camp, they will have a health screening, including a temperature check upon their return.
- Any guests, delivery drivers, or staff who come from outside Camp to work, will be temperature tested and screened upon arrival.
- We are still hopeful our staff and CIT's (Counselors in Training) will be vaccinated prior to camp. At this point, indications are that this will be available.
- We are in consultation with our local health department and medical personnel. We will call them for guidance whenever needed during camp sessions.
- Full refunds will be given if camp is cancelled or your child is unable to attend due to COVID-19 or COVID-19 symptoms.

We are looking forward to providing a truly memorable Cheerio experience to your children this summer! If you ever have questions, concerns, or suggestions, always feel free to give us a call (336-869-0195). We can't wait to see you soon!
