

Camp Cheerio

Health and Safety Considerations

- Please do not attend any events/employment at Camp Cheerio if you are not feeling well or have a temperature of 100.4 or higher. We encourage you to check your temperature for several days before coming to Camp.
- Participants or Staff entering Camp Cheerio are required to have a health screening and temperature check.
- Participants at Camp who show symptoms or have a fever will be asked to leave or be picked up by their parents.
- All Campers, Staff, and Participants at Camp should have a mask available at all times.
- Social Distancing should be practiced at Camp if at all possible. If not possible, a mask should be worn. If Campers/Guests/Staff are more comfortable wearing masks at other times, they are free to do so.
- Camp Cheerio shared facilities (bathrooms, surfaces, etc.) will be cleaned/disinfected multiple times each day.
- During Summer Camp, cabins and cabin bathrooms will be cleaned and disinfected daily.
- Frequent hand washing is encouraged, especially before meals.
- Hand sanitizer is available at each building in Camp, at each activity, and on each table in the Dining Hall.
- Activity equipment will be disinfected between groups and if possible, between participants.
- Visitors will be limited at Camp, and if allowed, will be directed to the Camp Office for a health screening.

- Tables in the Dining Hall will be spaced at least 6 feet apart and seats will be reduced to encourage social distancing.
- Food will be served in a manner to limit sharing of utensils. Any lines of people will be socially distanced whenever possible, and wearing of masks will be encouraged.
- If we are using a buffet line for food service, masks are required.
